

Sustainable and flexible
Reconfigure the TOUCH when you move instead of throwing it away.

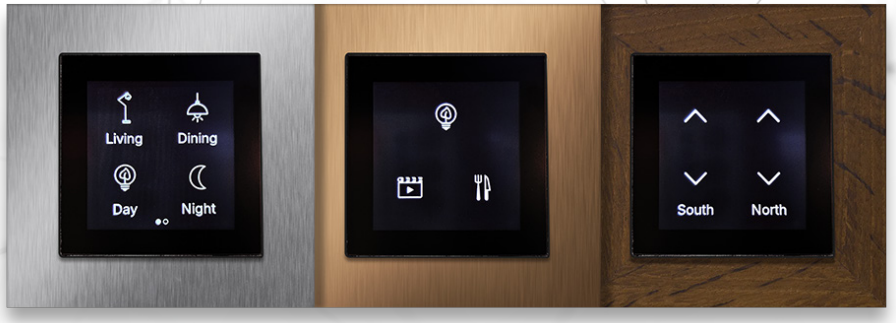

LIGAAIR TOUCH

Available in standard sizes:
60 × 60 mm (CH)
55 × 55 mm (EU)

LIGAAIR CASAMBI

DESIGN MEETS FUNCTION
WITH THE LIGAAIR TOUCH

Discover the next generation of wall switches for up to eight Casambi channels. The **LIGAAIR TOUCH** adapts to your needs at any time. Skip the complex project planning. Choose from 23 icons and label the buttons in the app.

LIGAAIR

CASAMBI

Smart light for rooms of any type

Since 2016, LIGAAIR has been developing, distributing, and implementing Casambi Bluetooth controls for lighting and blinds – practical, reliable, and **made in Switzerland**.

From relays and sensors to high-quality switches, LIGAAIR offers flexible control solutions. The systems enable **intuitive, modern lighting control via switches or app**.

Especially in existing buildings or architecturally demanding projects, where retrofitting control wiring is difficult or impossible, LIGAAIR solutions stand out for their **fast installation, scalability, and cost-effectiveness**.

Thanks to Bluetooth 5 technology, **ranges of up to 200 meters** between devices are possible.

Why Casambi?

Smart

All devices are active repeaters in the system, automatically forming an intelligent Bluetooth mesh network.

Clean

No control hub or wiring required, saving both resources and costs.

Easy

Commissioning and fine-tuning are done via the free, intuitive Casambi app.

Everywhere

The market-leading Casambi system has already been implemented in over 250,000 projects worldwide.
