

Operation via wired shutter buttons:

Without programming on the Casambi app, an action of max. 300 seconds takes place after a 3-second pulse

Operation of a shutter:

Programme UP or DOWN on a button in the Casambi app (controls an element)

If this button is pressed for longer than 3 seconds, an action of max. 300 seconds UP or DOWN takes place.

Operation of several shutters:

Create a scene with the desired shutters. Max. UP or max. DOWN.

A push-button command controls the blinds for 300 seconds. Another button command stops this.

Set timeout (de-energise motor)

Network configuration > Control options > Use control hierarchy

down > Behaviour of manual control: without timeout

For all shutters icons:

- Behaviour: always timeout
- Timeout: 5 min.
