

Declaration sticker

Casambi Chip 002 for normal range (yellow sticker).
Casambi Chip 003 for long range (white sticker).

Article designations:

- All articles with a + at the end are suitable for long range use e.g. LIGA.AIR.REL.240+

Yellow sticker for normal range:

- Indicates that this Casambi component has the normal range. Can be combined with Casambi components with a wide range.
- The Bluetooth antenna is located on the side where this sticker is attached.

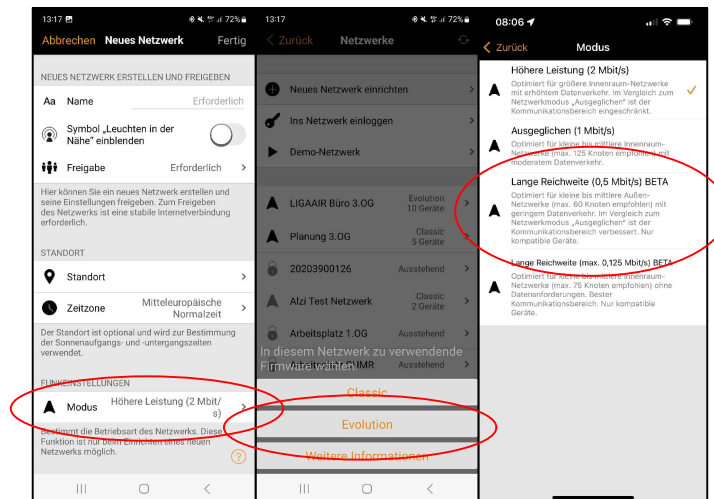

White sticker for long range / long range max:

EnOcean is not compatible with long range and long range max network modes

- Indicates that this Casambi component has the long range. **Cannot** be combined with Casambi components with normal range.
- The Bluetooth antenna is located on the side where this sticker is attached.

Create network for long range / long range max:

- Attention: In this network only CASAMBI components with Long Range can be used.
- If there are devices in the vicinity, the signal strength is displayed as a square, so the LIGAAIR module is suitable for Long Range.
